

## OBJECTIVES

The aim of this module is to enable participants, through theoretical and practical training, to recognise signs and symptoms of life threatening situations and administer safe and effective first aid in the wind turbine industry/WTG environment in order to save lives and prevent further injury, until the casualty can be handed over to the next level of care

After having successfully completed this BST First Aid Module, the participants will have the ability to:

- 1) **Act independently** in recognising, assessing, and prioritising the need for basic first aid and providing lifesaving first aid until the casualty can be handed over to the next level of care in case of an incident in the wind turbine industry/WTG environment.
- 2) **Take responsibility** for recognising their limitations as a basic first aider, calling for help and enable evacuation off the casualty in case of an incident in the wind turbine industry/WTG environment.

## TARGET AUDIENCE

Personnel who will be working in the wind industry or related fields and will have their duties in a wind turbine environment, usually in physical contact with a wind turbine or WTG structure.

Personnel that perform job functions that have been risk assessed by their employer or their workplace duty holder as a function, where training according to one or more modules of the BST standard may mitigate of the identified risks

## ADMISSION REQUIREMENTS

- Minimum age of 18 years;
- Valid certificate of medical fitness;
- WINDA ID.
- Furthermore, personnel in the wind service industry must be able to read and write to a sufficient standard to be able to carry out instructions and complete the required documentation.
- It is an advantage if participants are able to read, speak and write English.

## COURSE

- 1 Day
- Theoretical examination: 50 minutes
- Language: English

## CONTENT

- Introduction to the training;
- Lifesaving first Aid using primary survey and the first aid structure;
- Providing first aid to relevant incidents in the wind industry.
- Principles of operation with external generators;

Practical excercises:

- Scenario-based training

### **VALIDITY CERTIFICATE**

Valid for a period of 2 years.

Thereafter the delegate is required to maintain the validity of the certificate by completing a refresher course of each module.

### **PRACTICAL INFO**

Maximum number of participants: Theory: 12 Practical: 6

We supply the following PPE:

- Harnesses
- Helmets
- Connectors (carabiners)
- Lanyards
- Ropes
- Accessories
